SSC
K.B.P Vidyalaya, Kopargaon
2015 - 2016   *Percentage:76.60%*

PROJECTS

Tickets Now (02/2023 - Present)
- Created multiple APIs, developed a Spring Boot Maven backend application centered on ticket booking, shows finding, and movie search. Developed a system that was both robust and effective by utilizing my knowledge of Spring Boot, JPA, Hibernate, and MySQL

Book library Management (01/2023 - Present)
- I develop the student library management system by using Spring boot framework which ensure the record for the books , student , card and also contains different types of the API's and store all the data in MYSQL server by using Hibernate and the JPA

Search Engine (12/2022)
- The aim of this project work is to create a search engine system that retrieve information from the internet based on the keyword that the user supplied. Then search that keyword in our database and gives results according to that.

Design and Fabrication of Manure Spreader (2021 - 03/2022)
- We build the trolley and it is used to reduce the manual efforts of farmers in spreading manure or bio fertilizers and provide the most convenient and cost effective way of spreading manure in farm fields by means of our project
